

La Loma Resort

Discover a new meaning of the term relaxation at La Loma Resort with a quality of life only to be found in Southern Spain.

Thanks to gifted Mexican architect José de Yturbe, La Loma is a very special resort where attention to detail is omnipresent. The walls' minimalist volumes, façades free from all decoration, the play of light and shadow, water as both a decorative and relaxing element, the wide spaces to be found in every home... all combine to create a modern, functional atmosphere where peace and comfort are in the very air itself.

La Loma Resort is located in the Baños y Mendigo area, 10 minutes away from the Mar Menor lagoon whose placid waters bathe more than 70 km of coastline and where the offer of water sports is infinite. A mere 15 minutes away is the provincial capital, Murcia, with all of the advantages and amenities of a large city.

Within La Loma Resort's 525,000 m² there are 328 apartments, 80 villas and 62 bungalows - three different types of homes adapted to suit your needs.

Moreover, within La Loma Resort there are two more pleasant surprises: Polaris World's splendid, impressively equipped Polaris Sport Centre, and the Town Centre, a spectacular colonnaded guitar-shaped plaza, a place to relax but also a place to enjoy the wide range of services on offer.
